7th July Oaks Graduation 3pm

Tree Tots

Where Nature Nurtures

April 2023

Goodbye and Good Luck!

We are very sad that Phoebe will be leaving Tree Tots on the 21st April!

Phoebe has been an exceptional educator during her time at Tree Tots and we know she will be incredibly missed by the children, staff and parents alike!

We wish Phoebe all the best for her future!

Penguin Day

World Penguin Day highlights one of the worlds most fascinating creatures. The children will have the opportunity to learn about the different species of penguins and how they are threatened by climate change. The children will enjoy creating their own penguin habitat and will talk about what other animals they may find there.

What's happening in March

Our focus theme for this month is Spring!

All the children will be playing an active role in sowing lots of seeds in the hope that we will grow delicious fruit and vegetables that will be ready by the summer!

World Health Day

World Health Day takes place on the 7th April each year. It is the anniversary of the 1948 foundation of the World Health Organisation (WHO). This year marks its 75th anniversary and the theme is Health for All. Even from a young age children will begin to think about their own health so we make sure that we promote good hygiene and a healthy lifestyle by providing exciting learning opportunities for them.

Suncream

As the weather is now getting better, please can we ask all children to bring in a bottle of suncream with their name on and a hat that can stay at the setting for them.

National Unicorn Day

National Unicorn Day is celebrated on April 9th each year. It was first introduced in 2015 and it is a special day to celebrate the wonderful, mythical creatures that are unicorns.

Known as creatures of legends, unicorns are famous for their single, spiralled, pointy horn and sleek white coats and tails.

The children will get to enjoy listening to stories based around unicorn's as well as creating their own stories using props. Our youngest children will explore sensory trays that will include things like gloop, mouldable soap, and glitter.
